Science Knowledge Quiz | Pew Research Center

Faith and Reason. Traditionally, faith and reason have each been considered to be sources of justification for religious belief. Because both can purportedly serve this same epistemic function, it has been a matter of much interest to philosophers and theologians how the two are related and thus how the rational agent should treat claims derived from either source.

Faith and Reason | Internet Encyclopedia of Philosophy

Note: As always, I want to be clear that I am attacking creationism, not Christianity. I am concerned with science, not religion, and there are plenty of people who accept evolution and still believe in God. So do not confuse an assault on the pseudoscience of creationism with an assault on religion. ... If you just imagine what an intermediate ...

Belief Systems Books - Goodreads

A core belief is just one component of a schema. Also, note that the core belief is not the only component of a schema that can be dysfunctional. At various points over the course of CBT with a particular client, we may work to modify core beliefs, conditional beliefs, interpersonal strategies, and/or other beliefs and assumptions.
