In this video McCormick-International B46 baler (part 2) I put twine tension device in the chamber where the twine is stored , the tension of the twines on knotters must be from 2 to 10 pounds.

McCormick International B46 baler repair (Part 2)

As far as I know, IH balers up to the 47 were the only ones to use the McCormick knoter. And IH traded on it: you can see the word McCormick above the International on the sticker on the plunger crank cover in the photo. They had two twine discs, over-centre keeper blade (for the 47 they added a spring-loaded keeper blade), fixed twine knife.

Knoter assembly for International Harvester 47 baler ...

Re: International B47 Baler They were a fast baler in their day (1960's) and well made; others have given info on things to look out for, but remember they have a much narrower pick up than the NH 376, and I would guess that parts might be more readily available for the latter machine than a B47.
