Oxford Handbook Of Positive Psychology

The Oxford Handbook of Positive Psychology studies the burgeoning field of positive psychology, which, in recent years, has transcended academia to capture the imagination of the general public. The book provides a roadmap for the psychology needed by the majority of the population—those who don't need treatment, but want to achieve the lives to which they aspire.

Oxford Handbook of Positive Psychology - Oxford Handbooks

The Oxford Handbook of Positive Psychology and Work examines what positive psychology offers to our understanding of key issues in working life today. Drawing on the disparate literatures from positive psychology, management, I/O psychology, and human resources, the volume begins with a consideration of the changing world of work that sets the context for the rest of the book and then moves into a specific consideration of work issues from the perspective of positive psychology.
