ciguapas, creatures who lived in underwater caves and whose feet were on backward so that humans couldn't follow their footprints, is reinvented by renowned author Julia Alvarez. Although the ciguapas fear humans, Guapa, a bold and brave ciguapa, can't help but be curious—especially about a boy she sees on the nights when she goes on the land to hunt for food.

The Secret Footprints by Julia Alvarez: 9780440417477 ...

The ciguapas are a secret tribe who live underwater "in cool blue caves hung with seashells and seaweed" and venture onto land only at night because they are so afraid of humans. Their unusual anatomy helps preserve their hidden existence--their feet are on backward, so that "when they walked on land, they left footprints going in the opposite directions."

While walking on the beach one day I found a remarkable fossil that looked exactly like a footprint. It was very small, about 3/4th of an inch in length. Instantly it reminded me of the beautiful short story "Footprints in the Sand". I carefully placed my newfound treasure in my pocket to take home. When...

Father's Day is almost here, and many of us are trying to come up with creative ways to make the dads in our life feel special. As for our family, we have four girls - the youngest is just 15 months, with almost five years between her and daughter #3. Ever since the baby was born, our entire family has been gaga over this sweet thing.
